

Ancient China Project

1. Choose one of Ancient China's monuments or buildings and build a 3-dimensional model of it out of whatever material you choose. Then write a description of your monument or building's purpose and importance in Chinese society.
2. Create a timeline of Ancient Chinese society from the beginning of the Shang dynasty to the end of the Han Dynasty. Include all important achievements and events. Use pictures and text on your poster.
3. Create a detailed replica of a terracotta army soldier. Use clay that hardens to recreate your soldier. Make sure the details match the real thing. Then write about what they were used for and how they were discovered.
4. Write a poem or song about life in China or another aspect of Ancient Chinese life. Your poem or song must show knowledge about Chinese life and what was important to people back then.
5. Research an artifact, or invention, from ancient China and create a replica of that invention. Include a written description and diagram of what the invention is used for and whether it is still used today.
